

MOLINE'S SECTION OF THE ARGUS

HIGH SCHOOL TO OPEN THE SEASON

Scrubs Will Meet Regulars in First Real Scrimmage of the Fall.

OLYMPICS START SUNDAY

Two Picked Elevens to Compete at Browning Field—After Illinois State Title.

Coach Slough of the Moline high school football team, announces the closing of two more dates for the 1914 eleven. West Liberty, Iowa, will play here on Oct. 10, while Moline will journey to Galesburg Nov. 14, for a game with the high school team of that city. The local coach plans to put his men through the first real scrimmage of the season at Browning field tomorrow afternoon, in which the scrubs will oppose the regulars. The first game of the season will be played at the field next Saturday afternoon, between two picked elevens from the high school. This game, while it will not mark the real opening of the season, will serve to give the men some excellent practice and the students and fans who follow the maroon and white warriors will be afforded a chance to see the men in a real workout.

Lineup of the first string men, although the eleven has not been definitely chosen, who take the field for practice daily as follows: Willis (captain), right end; Simonson, right tackle; Lundberg, right guard; Weatherhead, center; Sehner, left guard; Mullinix, left tackle; Crossen, left end; Weiderquist, quarter back; Person, right half back; Ludwick, left half back; Peterson, full back. Berg has also been getting in the regular lineup occasionally at left end, with Harrah at quarter back.

Assistant Coach Adams has charge of the second string men daily and is putting them through some hard drill work. They will face the regular eleven tomorrow afternoon and there may be some changes in both lineups after the game.

Olympics Open Sunday.

The Moline Olympics, contenders last year for the Illinois semi-professional championship, but who lost the title to the Rock Island Independents, are undergoing constant grilling under the watchful eye of Coach Hartzell, preparing for the opening game at Browning field next Sunday. Daily morning practice is held at the field, with about 25 candidates trying out for the team.

The Olympics plan to make another effort this year to land the state title and have an exceptionally strong and heavy team. A number of last year's stars have returned to the game and new men are proving good. Sunday's opening game will be a practice affair between two picked elevens among the candidates. Coach Hartzell plans to pit his regular team against the scrubs.

At a conference between representatives of the Red Men lodge football team and the Olympics, the schedule for the coming season was discussed in order that dates will not conflict. It was decided that when both teams have games here on the same date, the Red Men baseball park and Browning field will be used.

DRY FORCES PLAN ELECTION RALLY

Moline supporters of temperance, who met defeat at the polls when the matter of abolishing saloons in this city was voted upon in the spring plan a big election rally and meeting to be held on the afternoon of Sunday, Nov. 1, at 2:30 in the parlors of the First Lutheran church, when discussion of the various candidates for office will be held and plans made to support those who oppose the saloon.

At a meeting of the Scandinavian Temperance union held last night in the Mission tabernacle, the coming rally meeting was planned and the date set. It is also planned to secure a number of good speakers, who will address those present. Another meeting of the union will be held in the First Lutheran church Oct. 19, at which time further discussion of the rally will be held and names of various good speakers suggested with the end in view of securing two or three of them for the rally.

The dry forces claim they are by no means beaten and will bring the wet and dry issue to a vote again within a couple of years and win out.

ISSUE CALENDAR OF SCHOOL YEAR

Principal E. P. Nutting Announces Dates for Holding Events.

TO ORGANIZE GLEE CLUBS

New Musical Instructor Plans Feature—Work Progresses on the High School.

The opening week of the fall term at the Moline high school has come to a close, and work is now going on daily in routine form. The year is to be a hard one, and one of much work, according to Principal E. P. Nutting. He announces today the following calendar of events for the year 1914-1915:

Dec. 4—Boys' declamation contest.
Dec. 11—Big Eight declamation contest at Monmouth.
Feb. 11—New semester begins.
Feb. 12—Girls' declamation contest.
Feb. 19—Big Eight girls' declamation contest at Canton.
March 19—Big Eight debates.
April 16—Boys' local oratorical contest.

April 23—Extempore local speaking contest.

April 30—Big Eight oratorical contest at Princeton.

May 1—Big Eight track meet at Galesburg.

May 7—Big Eight extempore speaking contest at Moline.

Commencement will not come later than June 11.

The only break in the regular routine will take place some time in the early part of 1915, when the new high school has been completed and the change will be made from the old building now occupied.

New Music Instructor.

There has been a change in musical instructor, Earl Baker having resigned last year to accept another position. Miss Peterson, the new teacher, plans to organize glee clubs among the boys and girls, a new feature at the high school. She announced yesterday that she would be at the high school assembly room on Wednesday evening

after school to test the voices of any who desire to join the glee clubs. It is hoped that a large number will report and good glee clubs can be organized.

There will be some changes of a minor nature in the program given above, and there will also be some additions. The class play, which will take place some time in the early spring, is not announced because the date has not been set. If Moline wins the debates of March 19, this will necessitate the holding of a triangular debate.

Principal Nutting estimated today that 37 per cent of the members who graduate from each class attend universities or colleges.

Older Students in School.

According to the report turned over to Superintendent C. H. Maxson of the public schools by various teachers, Moline's schools this year will hold a greater number of older boys and girls than ever before. The total enrollment at present is 4,103, and Mr. Maxson stated today that he expected an enrollment of 5,000 before the year was out.

Roof on High School.

Work is progressing rapidly on the new high school building and the roof has now been placed upon the structure. This eliminates the possibility of further hindrance to the work by rain, and it can now be rushed through to completion. The new building will probably be ready for occupancy some time in February. The old high school will then be converted into a central grammar school, and it is thought that the school enrollment will increase with these better facilities. The present central grammar school will be used for grade work.

ABUSES HIS DAUGHTER FOR BEING ARRESTED

Angered because his daughter, Mrs. Hilda Saline, who resides at 424 1/2 Railroad avenue, had been arrested in company with a man on a charge of immorality, Peter W. Lundgren appeared at the daughter's home and abused her. For this Mrs. Saline, police matron, had him arrested. Magistrate Frank Gustafson fined him \$4.80 in police court this morning on a charge of disorderly conduct.

She—You love me like a novice. He—Do I? Then we are both imperfect. I should know more and you shouldn't know so much.—Boston Transcript.

BUILDING MEN TO HOLD CONVENTION

Annual Meeting of Illinois Association League in Moline.

AUTO TRIP WILL FEATURE

Plan Tour of Tri-Cities Opening Day—October 8 and 9 Set as Dates.

The 35th annual convention of the Building Association League of Illinois will be held in this city October 8 and 9, in the rooms of the Moline Commercial club and local members of the Moline Homestead & Loan association are laying extensive plans for the entertainment of the 150 delegates who will be here during the two days of the annual meeting. Within a week the official program will have been completed and will be ready for announcement. Numerous inquiries are being received by the local association from delegates and visitors who plan to attend the convention, regarding hotel accommodations and reservations.

Auto Trip Features.

At last night's monthly meeting of the local association, plans were discussed for the coming convention, and decision reached to make an auto tour of the tri-cities on the afternoon of the first day a feature of the convention. A luncheon will be served to the delegates in the Commercial club rooms at noon. O. E. Mansur and A. G. Abraham have been named as a committee to solicit automobiles for the tour.

On the evening of Oct. 8 there is to be an open meeting of the association in the club rooms, and all persons interested in this line of work will be invited. Harry Ainsworth and C. S. Kerns have been named to officially represent the Moline association at this meeting.

Bulletin is Issued.

The following bulletin regarding the approaching convention has been sent throughout the state to the various associations who will send delegates: "You are urged to have your association represented at this meeting by one or more delegates, as many matters of importance relating to the building and loan association will be presented for consideration and should receive the combined action of the members in furthering this interest. "You are requested to bring before this meeting all matters which may be of general interest, so that the same can be thoroughly discussed and properly acted upon. If there are any changes in the laws contemplated and which may be in the interest of building and loan associations the proper place to bring same is before this meeting, so that such contemplated changes can be intelligently discussed and acted upon for the benefit of this interest."

"One of the mooted questions at the present time is the contemplated legislation in reference to a new war tax, and congress is now at work revising same, intending to reenact the old Spanish-American war tax with some minor changes. It will require the cooperation of all the members to secure exemptions we heretofore secured and action upon this matter will be had at this meeting. This is a matter of grave importance to all the associations in the state as well as the United States and your active cooperation is requested."

The directors last evening authorized loans to the sum of \$5,100.

MUNICIPAL COURT FOR EAST MOLINE

Special Election Ordinance is Passed by Council at Regular Meeting.

At the regular weekly meeting last evening of the East Moline city council, an ordinance was adopted calling for a special election to be held Saturday, Oct. 17, at which time the voters

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST. So-called stomach troubles, such as indigestion, wind, and stomach ache, are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acid. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisulphated magnesia, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as bisulphated magnesia, which can be obtained from any druggist, and thus enable the stomach to do its work properly without being bothered by poisonous gas and dangerous acids.—M. F. P.—(Adv.)

will decide for or against the establishment in that city of a municipal court. Judges and clerks of election for the various precincts including Watertown, were named in the ordinance.

Attorney George Long and City Attorney F. H. Rallsback, both of East Moline, appeared before the council and urged that the ordinance be adopted, as the establishment of a municipal court in East Moline meant the social betterment of the city. It was cited that numerous other cities even smaller than East Moline, have established municipal courts, and in every instance they have proved to be a decided benefit. The result of the address made by the two attorneys was that the ordinance was passed without a dissenting vote and Oct. 17 set as a date for the special election.

DIP IS CAUGHT WHILE AT WORK

Joe Laughlin of East St. Louis in Act of Picking Pocket.

Patrolman Jacob Wigers arrested a man on a Blue line car last night, who was caught in the act of picking the pocket of a Moline citizen. The man gave the name of Joe Laughlin, East St. Louis, when haled into police court. Seymour Peterson, 2515 Eleventh avenue B, boarded a Blue line car with a purse in his pocket containing \$27. Laughlin extracted the purse deftly, during a jostle in the crowd, but the act was witnessed by other passengers who nabbed the culprit. In the meantime Laughlin dropped the purse to the floor and it was picked up by the owner and found to be intact.

The car was stopped and Wigers arrested Laughlin and took him to jail. When arraigned before Magistrate Frank Gustafson in police court this morning the East St. Louis man entered a plea of "not guilty." The case was continued until the state's attorney can be in attendance and prosecute. Local police are of the opinion that the pickpocket has given a fictitious name and address, and that he is the man who has been operating about here successfully for the past few weeks.

HALT TYPHOID WITH VACCINE

State Board of Health Furnishes City With \$5,000 Worth of Medicine.

August Sundine, distributor for the Illinois state board of health in this vicinity, has received from Springfield a quantity of typhoid fever vaccine, which is sent free by the health officials in order that the typhoid epidemic threatening in this city may be halted. Any physician can secure the vaccine by communicating with Mr. Sundine.

In addition to the vaccine Mr. Sundine has received a large quantity of antitoxin. Free distribution of the two in Moline alone, is costing the state about \$5,000.

HENRY HOAGE DOES NOT KEEP PROMISE

Henry Hoage, who promised Police Magistrate Frank Gustafson only yesterday morning that he would behave in future if given his freedom from a disorderly conduct charge, failed to keep his promise and was arrested again last night. He became angered at some trivial matter in the restaurant where he was employed, 413 Fourteenth street, and smashed several windows. The fine of \$10 which was suspended on his promise to behave yesterday, was levied against him this morning by the magistrate. Being unable to pay he was sentenced to serve a 10 days' term in the county jail. It is probable also that the restaurant owner will try to collect from him for the broken windows.

LOCAL ASSOCIATION TO ENTER CONTEST

The Moline Y. M. C. A. will take part again this year in the annual state membership contest conducted throughout Illinois for the purpose of increasing membership in all Young Men's Christian associations. Last year this city won third place by securing 268 new members in the single week of the contest. The state campaign this year will be a part of a national membership campaign. A prize will be awarded the Y. M. C. A. securing the largest number of members in the single week, the dates of Sept. 29 to Oct. 3 having been set.

ANSWER FIRST FIRE ALARM IN TWO WEEKS

The combination fire truck and pumping engine recently installed at the Central fire station had its first run in response to an alarm of fire this morning shortly before 1 o'clock. The call came from box No. 25, and proved to be a false alarm. Incidentally this was the first call to a fire in Moline for a period of exceeding two weeks, an unusual record. Sept. 6 was the date of the last blaze.

SEMINARY OPENS AT LOCAL SCHOOL

Dr. Gustav Andreen Will Address Theological Students. Tomorrow.

HOLD QUARTERLY MEETING

Home Mission Board Assembles at Augustana—Transact Routine Business.

Formal opening of the Augustana Theological seminary will take place tomorrow morning, when the opening address will be given by Dr. G. A. Andreen. During the last two days the matriculation committee has been in session, considering candidates who have made application for admission in the theological department. This committee is composed of Dr. L. A. Johnston, president of the Augustana synod, Dr. J. A. Bendelle of Denver, Col., vice president, Dr. Andreen and the members of the seminary faculty.

Word has been received from Dr. C. E. Lindberg, who has been touring Europe during the summer and was marooned on an island off the coast of Sweden since the opening of the European war. The message is dated at New York, and states that he is safe in the United States, but will not arrive in Rock Island before the latter part of the week.

Home Mission Board Meeting.

The home mission board of the Augustana synod is holding its quarterly meeting at the college today. As far as is known, nothing but routine business will be taken up. The board controls the home mission work in Alaska, Idaho, Utah, Montana, Tennessee, Alabama and Florida. This territory is not included in that controlled by the 12 conferences of the synod, which contains the most extensive part of the synod home mission field.

The committee is composed of Dr. L. A. Johnston, Dr. J. A. Bendelle, Rev. J. E. Rydback of Gowrie, Iowa, Rev. Nels Forsberg, Dr. C. G. Blomgren, Dr. C. W. Foss, C. A. Larson and O. P. Peterson of Rock Island, and Andrew Peterson of Moline.

FORMER DENTIST IN CHICAGO JAIL

Dr. William Sensibaugh, Evangelist, Gets in Trouble With Women.

Dr. William C. Sensibaugh, who many residents of East Moline will remember as a former dentist in that city, has gotten into a peck of trouble in Chicago. Sensibaugh, while still practicing his profession in East Moline, became imbued with a sudden and overcoming religious fervor, which prompted him to close up shop and enter the evangelistic field. As an evangelist he was successful.

Now, however, according to the story sent out from Chicago, Sensibaugh has taken a decided fall from grace, and is locked up in the Chicago avenue police station. The arrest came after a 19-year-old girl had swallowed poison presumably because Sensibaugh had cast her aside for another woman. And at the same time the former East Moline was married, had a 4-year-old adopted daughter, and was supposedly a devout Christian.

In Chicago, it is said, Sensibaugh posed as a vice investigator and general evangelist, and also claimed to be a former detective. He came to this vicinity some 15 years ago, and first hung out his dentistry shingle at Port Byron. It was here that he met and married Miss Minnette Howard, who last June started suit against him for divorce. He removed to East Moline after being married and started a dentist's office there.

How to Make Your Hair Beautiful

Ten Minutes' Home Treatment Works Wonders, Stops Falling Hair, Itching Scalp, and Dandruff and Makes the Hair Soft, Brilliant, Lustrous and Fluffy. Better than all the so-called "hair tonics" in the world is a simple, old-fashioned home recipe consisting of plain Bay Rum, Lavona (de Compo), and a little Menthol Crystals. These three mixed at home in a few minutes, work wonders with any scalp. Try it just one night and you will find your hair soft, shiny, and fluffy. From your drugist 2 oz. Lavona, 6 oz. Bay Rum and 1/2 oz. Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavona, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on soft cloth. Rub the cloth slowly through the hair, taking just one strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil, and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again, rub the lotion briskly into the scalp with the finger tips or a medium stiff brush. Apply night and morning. A few days' use and you will not find a single loose or straggling hair. They will be locked on your scalp as tight as a vice. Dandruff will disappear and itching cease. You will find fine, downy new hairs sprouting up all over your head, and this new hair will grow with wonderful rapidity. Any druggist can sell you the above. The prescription is very inexpensive and we know of nothing so effective and certain in its results.—(Adv.)

TALENTED SOCIETY SOLOISTS

FAMOUS FOR COATS AND SUITS

Lundt & Co

THE BIG STORE ON THE BROAD WALK

ELABORATE DECORATIVE EFFECTS

Festival of fashions—superb—unique—educational

Living models—la promenade—tomorrow and every afternoon this week

The most elaborate style show Moline ever saw

A truly spectacular event in which living models will present the most exquisite qualities of the new Autumn modes in gowns, wraps and hats—important also will be a high-class musical entertainment rendered by talented musicians and soloists.

The whole of this great store a magnificent gallery in which 'the real' from a new 'age' forms a myriad picture

Worthy of note also will be the sales of the new wardrobe accessories—new fabrics and millinery
